191	GRAPE - Himrod	#1	Vigorous vines produce large, loose clusters of oval, soft, flavorful berries. Grapes have a honey-like flavor and a melting, juicy texture	\$30.00
192	GRAPE - Himrod	#3	Vigorous vines produce large, loose clusters of oval, soft, flavorful berries. Grapes have a honey-like flavor and a melting, juicy texture	\$60.00

193	GRAPE - Thomcord	#1	Is highly productive with large clusters of medium-sized berries, but unlike Concord, it has adherent skin. The aromatic Labrusca flavor is similar to that of Concord but mellow.	\$30.00
194	GRAPE - Thomcord	#3	Is highly productive with large clusters of medium-sized berries, but unlike Concord, it has adherent skin. The aromatic Labrusca flavor is similar to that of Concord but mellow.	\$60.00
195	GRAPE - Canadice	#1	Produces compact clusters with medium size, pink to light red seedless berries. A slipskin variety with tender and edible skin with a distinct but not overpoweringly labrusca flavor.	\$30.00
196	GRAPE - Canadice	#3	Produces compact clusters with medium size, pink to light red seedless berries. A slipskin variety with tender and edible skin with a distinct but not overpoweringly labrusca flavor.	\$60.00
197	GRAPE - Jupiter	#1	Has large clusters of large, reddish-blue berries with mild muscat flavor. Non-skinskin with crisp flesh texture	\$30.00
198	GRAPE - Jupiter	#3	Has large clusters of large, reddish-blue berries with mild muscat flavor. Non-skinskin with crisp flesh texture	\$60.00
199	GRAPE - Venus	#1	Is a dark-colored grape with foxy, muscat flavor. Berries are slipskin but often contain a noticeable seed trace.	\$30.00
200	GRAPE - Venus	#3	Is a dark-colored grape with foxy, muscat flavor. Berries are slipskin but often contain a noticeable seed trace.	\$60.00
201	GRAPE Vanessa	#1	Produces medium-sized clusters of bright deep red berries with moderate bloom, firm flesh, and crisp texture. Flavor is mildly aromatic but not of Labrusca type and is considered among the best of red seedless	\$30.00
202	GRAPE Vanessa	#3	Produces medium-sized clusters of bright deep red berries with moderate bloom, firm flesh, and crisp texture. Flavor is mildly aromatic but not of Labrusca type and is considered among the best of red seedless	\$60.00
203	GRAPE - Everest	#1	Is a truly seedless Concord-type grape offering a flavorful berry with the attractive blue coloring of a Concord at nearly double the size	\$30.00
204	GRAPE - Everest	#3	Is a truly seedless Concord-type grape offering a flavorful berry with the attractive blue coloring of a Concord at nearly double the size	\$60.00
205	GRAPE Interlaken	#1	A sister seedling of Himrod, Interlaken is very early ripening. It produces clusters of small, white berries with strong American flavor.	\$30.00

206	GRAPE	#3	A sister seedling of Himrod, Interlaken is very early ripening. It produces clusters of small, white berries with strong American flavor.	\$60.00
207	GRAPE - Suffolk Red	#1	Produces medium to large, loose clusters of mild-flavored red berries. Winter damage and poor fruit set are often problems, but flavor is outstanding	\$30.00
208	GRAPE - Suffolk Red	#3	Produces medium to large, loose clusters of mild-flavored red berries. Winter damage and poor fruit set are often problems, but flavor is outstanding	\$60.00
209	GRAPE - Prairie Star	#3	a vigorous vine that produces long, loose clusters, is moderately productive, and does not require cluster thinning. Prairie Star can produce wines that lack foxiness with good hybrid wine quality	\$60.00
210	GRAPE - Riesling	#3	Is the noble grape variety of Germany, one of the most hardy vinifera varieties best suited for cooler climates	\$60.00
211	GRAPE - St Croix	#3	Produces wines that have been compared to a light to medium burgundy. Sugar content and tannins are low at maturity, but St. Croix has been used both as a varietal and for blending	\$60.00
212	GRAPE - Delaware	#3	Referred to as "the best American table grape" in The Grapes of New York (Hedrick, 1907), Delaware is an early-ripening red variety with small berries and clusters, and mild flavor.	\$60.00
